THE VALLEY'S ELEGANT LIFESTYLE MAGAZINE

Baby, it may be cold outside, but you still have to look your best. Don't mess up a good hair day with traditional earmuffs. These innovative **Exolite Heat Ear Warmers from 180S** attach around the back of the head for less hair mess. The great design also allows the head to release heat naturally, and its triple microfleece layers offer the ultimate in protection from winter's whipping winds. Available at Dick's Sporting Goods, Whitehall and Southmont Shopping Center, Easton. \$25.
